FELICITY VISUAL BOOK

More freely, more boldly, to release the space.

FELICITY

Time for gettirg lost in a book. Time for keeping warm. Time for writing a letter. Time for taking a nap. If I could if you want to experience in the space ot one of their ‘time”, the communication unprecedented “place” is born would not such information is error free. If you could experience those ‘time” at one single space, unprecedented place will born.

FELICITY series was born to such ideas.
We introduce our products that combines the new functionality while having a neat appearance without seizing tha space traditionally.

More freely, more boldly, to release the space. A new space making from a single product starts from here.

FELICITY

LIVING ROOM

There are verious times. For example; when you get up early in the morning, when you read a book,when you enjoy your time alone, when you have a party late into the night with some guests, when you talk all the night with an important person.
We think "nice living room" is the place where people gather naturally and want to linger naturally.

SOLID WOOD

In our factory, we use the wood with a knot which has benn the conventional drawbacks, because we think the beauty of life dwells on the knot. We want to respect the beautyand presence given off from the furniture in which knots are arranged beautifully.
Since ther is no furiture with the same knot as one in the world, we hope you use it for a long time.

CHAIRS

The EYEDEA LIVING chair's supple legs and relaxed curve reminds the appearance of elegant woman. Comfortableness, needless to say, the usablity of a dining chair such as lighter weight and the feel touched by hand are pursued from every direction. The curve which is made by shaving solid wood to match the human body, gently wrap up the person who sit on it.
