KALON

KALON aims for "airy beauty". It is never a light delicate nor boring inorganic. We think the "airy beauty" should light up the mind while lightweighting the product.

KALON was produced to form light and beautiful life. Woman-like soft curve is also a form to improve the weight and durability. While pursuing practicality, cherishing the rich look of wood grain and knots, the touch, the dignity, KALON has been carefully crafted one by one.

To live lightly and beautifully as breeze.

The proposal from Firstfeelin.
